ONE REGION READY PLEDGE

One Region Ready created a pledge that organizations can take to demonstrate to employees, customers, clients and vendors their commitment to put health and safety first as they return to business.

The One Region Ready Pledge consists of eight statements to certify a business is adhering to the One Region Ready guidelines and following best practices to keep their customers and staff safe and healthy. The tenets of the pledge include: the use of masks; reduced occupancy; handwashing and sanitization accessibility; contactless solutions for payments and entry; sanitization of high-traffic areas; employee safety protocols; adherence to state, federal and One Region Ready guidelines; and reminders to adhere to social distancing best practices.

Businesses certifying the pledge will receive “**One Region Ready**” materials they can post on premises and online. In addition, their organization will be added to a searchable, online database on the One Region Ready website.
