

Helping our community return to work safely

The health and well-being of your team is the most important part of your back-to-business plan. You need a healthy staff to thrive. We can help you and your team get back to work safely. We're offering screenings and resources based on best practices from CDC guidance and policies adopted by leading companies. Our services help mitigate the spread of COVID-19, and our plan is continually updated based on guidance from the CDC, state and local public health agencies.

HERE'S WHAT WE CAN DO

COVID-19 testing and reporting

Case monitoring of suspected and COVID-19 positive employees

Pre-shift checks to include temperature screenings

- Handwashing education and monitoring
- "Return to Work Safely" protocol development
- Personal Protective Equipment (PPE) education and monitoring
- Management of exposures and contact tracing

INDIVIDUALIZED SAFETY PLANS

We recognize that not all businesses are the same, and there isn't a one-size-fits-all plan for safely returning to work. We'll help you tailor a safety strategy that fits your business needs. Putting a plan in place will help ease concerns for both you and your team as you get back to work. We'll get through this together.
