ANNOUNCING TWO NEW LEADERSHIP PROGRAMS

We are thrilled to announce two new programs that applications are now open for! Charleston Insight invites senior executives or owners who are new to Charleston or new to their position, along with their spouse or partner, to participate in an intensive and up-close look at the most challenging issues and opportunities facing our region. Civic Leaders Academy is a public service training program designed to identify, cultivate and train individuals for public office or to serve on appointed boards and commissions.
